

# Digital Transformation Project Information Sheet

## About the project

The Scottish Commission for People with Learning Disabilities (SCLD) is doing a research project.

The research project is about digital technology and people with learning disabilities.

SCLD thinks that all digital technology must be accessible for people with learning disabilities.

SCLD wants all people with learning disabilities to be able to use digital technology to make their lives better.

We want to hear about things that have made it more difficult to use digital technology.

We want to hear about things that have made it easier to use digital technology.

We want to find out what things in life frustrate people.

We want to help find solutions to these frustrations.

We think that digital technology can help with the solutions.

We want people with learning disabilities to be involved in all stages of the project.

## Who can I ask about this?

If you would tell us your experiences or have any questions you can ask Ruth Callander from SCLD on 0141 248 3733 or email [Ruth.C@scl.co.uk](mailto:Ruth.C@scl.co.uk)
