

Focus Group Questions

About mainstream digital technology use

What digital devices or apps do you use?

Can you tell us about some of the things you like to do using those digital devices and apps?

Do you think that digital technology has made your life better?

Do you have any worries about using digital technology?

Do you use digital devices and apps more now than you did before the Coronavirus pandemic?

What barriers, if any, have you faced using digital devices and apps?

What things have made it easier for you to use digital devices and apps?

About specialist and health and social care digital technology use

Do you use any specialist digital devices and apps to help you in your day to day life? If yes can you tell us about them?

Have you used any health and social care technologies like the COVID-19 passport or NHS near me? If yes, how did you find them to use?

General Questions

We are asking these questions because we hope there might be opportunities to explore how digital technology can help with other areas of people's lives, outside of the digital world.

If there was one thing you could change about your life, what would it be? This does not have to be about digital technology.

Is there anything else you would like to tell us?
